

How would you like a native tree planted on your behalf?

If you're happy to support the environment by receiving an 'online settlement pack' via email rather than a conventional settlement pack delivered by Australia Post we will reward the environment with a native tree planted on your behalf.

For every online settlement pack delivered by email we make a \$3 donation to Carbon Neutral for a native tree to be planted.

It's what we call a "Carbon offset settlement".

Our Commitment to the Environment

In February 2012, Vicki Phillipoff Settlements became the only Settlement Agency in WA to become accredited with environmental standards known as ISO 14001.

This means that every process in our business is continually reviewed to ensure our impact on the environment is minimised where ever possible, and our operations are managed in a more environmentally sustainable manner.

This donation is part of our process to involve you, our customers, and make a positive difference in reducing the impact of carbon emissions on the environment.

If you would like to be part of this process, let your Conveyancer know next time you speak to them.

For further information on where our donations are sent, go to www.carbonneutral.com.au
